Github: Perry-Pro
Portfolio: perry-pro.github.io

SKILLS

PROGRAMMING

[Embedded C] [C/C++] [Python]
[Assembly]

PLATFORMS

[STM32] [ESP32] [RISC-V] [Arduino]
[PIC] [RPI] [Jetson]

PROTOCOLS

[MQTT/TLS] [CAN FD] [SPI] [UART]
[I2C] [RS485]

TOOLS & IDE

[VSCode] [PlatformIO] [GitHub]
[Matlab] [Simulink] [PSpice] [MPLAB]

HARDWARE

[PCB Assembly] [Soldering] [Fusion
360] [FDM/SLA 3D Printing]

OS

[Linux Ubuntu] [MacOS] [Win 10/11]

OTHER

[MS Office Tools] [License A2 & B]
[Google Workspace]

LANGUAGES

English

Professional Working Proficiency

Greek

Native / Bilingual

VOLUNTEER

♥ Platelet Donor

EMBEDDED FIRMWARE & SOFTWARE ENGINEER

Embedded Firmware & Software Engineer with a genuine passion for microcontroller development, IoT systems, and low-level programming, backed by hands-on experience in PCB assembly, 3D modeling, and 3D printing. Over the years, built and tinkered with numerous embedded projects — from Arduino and PIC all the way up to STM32, ESP32, and RISC-V. Enjoys the full cycle: from wiring up hardware and writing firmware, to debugging and delivering a working solution. Always learning something new and looking for the next interesting problem to solve.

WORK EXPERIENCE

Embedded Systems Engineer & 3D Designer 07/2023 – Present

Modihive · Thessaloniki, Greece · R&D · modihive.com

- ESP32 & RISC-V firmware in C/C++; protocols: MQTT/TLS, CAN2, CAN FD, SPI, UART, I2C, RS485
- 5G IoT & Raspberry Pi 4 project development; NVIDIA Jetson flashing and setup
- PCB assembly, component soldering, HW/FW/SW debugging; Python utility scripts and automation
- GitHub version control, VSCode + PlatformIO; hardware stock tracking (spreadsheets & docs)
- 3D design (Fusion 360) & printing (Bambu Lab); environments: Windows, Linux Ubuntu, macOS

Medical/Dental Machine Specialist 11/2022 – 06/2024

Apostolides Healthcare Technologies · Thessaloniki, Greece, apostolides.gr

- 3D printing for dental applications — [Formlabs](https://formlabs.com)
- CBCT radiology machines — [Cefla](https://cefla.com) & [Planmeca](https://planmeca.com)

Refrigeration Technician 06/2016 – 04/2019

Real Energy · Kalamaria, Thessaloniki, Greece, realenergy.gr

CERTIFICATES – EMBEDDED

Advanced C Programming Course [IN PROGRESS]

Master C — apply for Embedded / Real-Time C roles

Mastering MCU: Timers, PWM, CAN, Low Power (MCU2) [IN PROGRESS]

STM32 Timers, CAN, RTC, PWM & Low Power via HAL APIs

Mastering MCU & Embedded Driver Development 04/2024 – 07/2024

28.5h — Bare metal: STM32 GPIO, I2C, SPI, USART from scratch [link](#)

Microcontroller Embedded C: Absolute Beginners 02/2024 – 03/2024

16.5h — Foundation Embedded C with STM32 [link](#)

Arduino e-Learning Academy — CollegeLink 10/2022

25h — 4 Smart Home projects on Tinkercad Autodesk [link](#)

ECESCON 11 10/2020 [link](#)

Workshop: "Data Analytics for IoT" [link](#)

EDUCATION

BSc — Department of Automation 2016 – 2022

International Hellenic University, Thessaloniki, autom.teithe.gr

- Final grade: 6.71 "Very Good" [link](#)
- Thesis (10/10): "3D Printed Robotic System" — 3D design, circuits, Arduino, Android app. Left in lab as a teaching artifact. [Drive link](#) [Github link](#)

PIC Microcontroller Course 2022 – 2023

Lamprou Konstantinos, MSc · Remote · picmicrocontroller.gr

- Embedded C Language, PIC18xx / PIC24xx architecture

PERSONAL PROJECTS

3D Printed Bluetooth Speaker 07/2022

- Self-built from scratch: research, 3D modeling, 3D printing, and circuit design [link](#)

REFERENCE LETTERS

Ph.D Tsagaris Apostolos 10/2022

Thesis supervisor — Mechatronics, PLC & SCADA, CIM [link](#)

Ph.D Manolakis Dimitrios 10/2022

Programming in C/C++ [link](#)

Ph.D Nikolaidis Nikolaos 10/2022

Microcomputers & Microcontrollers [link](#)
